

Basmala Saeed Mohammed

Machine Learning Engineer

basmalaeltabakh49@gmail.com | 01019201679 | Sharqia, Egypt | LinkedIn | GitHub

Summary

High-achieving Computer Science student (GPA: 3.79/4.0) with a strong focus on Artificial Intelligence and Machine Learning. Proven track record in developing AI solutions for healthcare and productivity. Award-winning participant in multiple hackathons and an experienced Technical Mentor. Currently specializing as a Machine Learning Engineer Trainee in the DEPI.

Skills

Programming: Python | SQL | C++ | Java | JavaScript

Machine Learning: Supervised/Unsupervised Learning | Feature Engineering | EDA | Model Deployment

Data Science Tools: Pandas | NumPy | Scikit-learn | Matplotlib | Seaborn | Power BI | Tableau

Frameworks & Databases: FastAPI | Tkinter | SQLite | SQL Server (SSIS, SSAS, SSRS) | Docker | Azure ML

Soft Skills: Technical Mentoring | Leadership | Agile Teamwork | Public Speaking

Professional Experience

HR Team Lead | ICPC Zagazig University Community 01/2026 – Present

- Leading a team of 10 members, managing recruitment cycles, and conducting technical interviews.
- Developed a Python Desktop App (HR Tracker) to automate analytics, reducing manual work by 90%.

Machine Learning Engineer Trainee – DEPI 12/2025 – Present

- Developing end-to-end ML pipelines including data cleaning, EDA, and feature engineering.
- Building predictive models using Python, Scikit-learn, and Azure ML tools.

AI Core Team & Co-Lead – GDG On-Campus & Zag Eng Family 11/2025 – Present

- Instructed 50+ students on Python, EDA, and Machine Learning fundamentals.
- Mentored a project team at G Camp to achieve 3rd place by guiding them through model building.

Business Intelligence & Data Analysis Intern | ITI & NTI 07/2025 – 08/2025

- Designed ETL pipelines and data warehouses
- Created interactive dashboards in Power BI and Tableau

Projects

Tiryak | HealthTech AI Startup 10/2025 – Present

- Developed an AI-driven platform to enhance medication search efficiency.
- Represented the project at the AI Lab for Startups (Creativa Ismailia).
- Awarded 2nd place at Banha Hackathon and 3rd place at MCIT Entrepreneurship Hackathon.

Know Before You Go (AI Weather Platform) 10/2025 – 10/2025

- Created a forecasting system using NASA satellite data (IMERG & MERRA-2).
- Implemented LSTM and Random Forest models achieving an 82% F1-score for rainfall prediction.

PDF & Image Merger | Desktop Application (Python, Tkinter) 08/2025 – 09/2025

- Standalone app to merge images & PDFs with drag-and-drop, previews, and customizable output.
- Packaged with PyInstaller; no Python installation required.

Mood Journal Tracker | Python & Data Visualization 09/2025 – 01/2026

- Desktop app for mental wellness tracking with Python

Education

Zagazig University, B.Sc. Computer Science 07/2023 – Present

GPA: 3.79/4.0
